

Dry Breathing Oxygen

Description

Is supplied in high pressure cylinders. Dry breathing oxygen is a colourless, odourless and tasteless gas.

Applications

- Aviation respiration
- Medical applications
- Respiration therapy

Hazard statement(s)

- May cause or intensify fire; oxidizer.
- Contains gas under pressure; may explode if heated.

Prevention statement(s)

- Keep/Store away from clothing/incompatible materials/combustible materials.
- Keep reduction valves free from grease and oil.

Response statement(s)

- In case of fire: Stop leak if safe to do so.

Storage statement(s)

- Protect from sunlight. Store in a well-ventilated place.

Other hazards

- No information provided.

Signal Word: Danger

UN No.: 1072

Hazard No.: 2(S)

Chem Symbol: O₂

Pictograms:

Dry Breathing Oxygen

General Specifications

Specifications	G Cylinder
Cylinder/Pack (101.325kPa @15°C) - m ³	10.3
Water capacity per Cylinder - L	50
Cylinder Colour	Black body/White shoulder
Outlet Connection	Type 11
Package Dimensions (H x W x D) - mm	1,510 x 230

Cylinder dimensions are approximate – variations may occur due to manufacturing tolerances. Height includes the valve. Container sizes may vary from state to state.

Package Sizes Available

Typical Analysis

Product Type	O ₂	Moisture	CO ₂	Methane	Acetylene	Ethylene
Aviation Grade	>99.5%	<7ppm	<10ppm	<50ppm	<0.1ppm	<0.4ppm
	Ethane	N ₂ O	Refrigerants		Solvents	Other
	<6ppm	<4ppm	<2ppm		<0.2ppm	<0.2ppm

Quality Assurance

Supagas Pty Ltd is committed to comply with the requirements of ISO 9001-2019 and to continually improve the effectiveness of our Quality Management System.

Everyone at Supagas understands we must provide a safe environment for both our employees and the wider community. We are therefore committed to implement and maintain a continual improvement approach throughout the organisation whilst also meeting all applicable statutory and regulatory requirements.

NATA Accreditation

The Supagas Laboratory located in Ingleburn, NSW has a NATA

Accreditation (No. 18955). Accredited for compliance with ISO/IEC 17025 and ISO 17034.
